

## 8OHdG (8-hydroxydeoxyguanosine) Antibody

(1 mg/mL, 50  $\mu$ L)

Catalog Number: **8OHDG**

Store at -20°C.

FOR RESEARCH USE ONLY

**Alternative Names:** : 8-OHdG, 8-Oxo-2'-deoxyguanosine

**Preparation:** Polyclonal antibody for 8-OHdG was produced by immunization of a goat with an 8-OHdG-KLH conjugate.

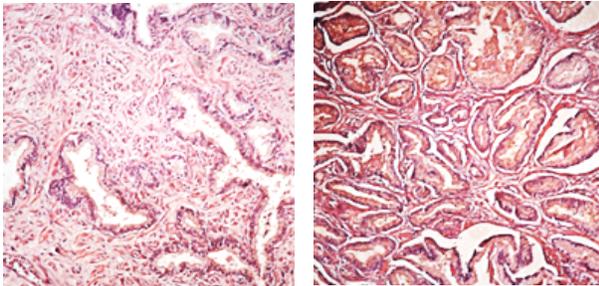

**Purification:** The IgG was purified using protein G

**Specificity:** The antibody recognizes 8-hydroxydeoxyguanosine.

**Form:** liquid; PBS, pH 7.4, containing 0.05% azide.

**Storage:** Avoid repeated freezing and thawing by dividing the contents into aliquots and storing at -20°C.

**IHC:** Dilute primary antibody 1:100 in horse serum for a minimum of two hours (overnight is recommended).

Left: Normal prostate tissue

Right: Prostate adenocarcinoma tissue
