

MGST2 Antibody

(50 µL)

Catalog Number: **DRD94117**

Store at -20°C.

FOR RESEARCH USE ONLY

The logo for Detroit R&D, Inc. features the company name in a red, serif font inside a blue rectangular box. Above the box are two blue peaks, and below it are three blue curves, resembling a stylized chromatogram or a molecular structure.

Alternative Names: MGST2; GST2; Microsomal glutathione S-transferase 2; Microsomal GST-2; Microsomal GST-II

Preparation: Polyclonal antibody for MGST2 was produced by immunization of a rabbit with a synthesized peptide derived from the internal region of human MGST2.

Specificity: The antibody recognizes MGST2 from human.

Form: liquid; PBS, pH 7.4, with 50% glycerol, 0.5% BSA, and 0.02% azide.

Storage: Avoid repeated freezing and thawing by dividing the contents into aliquots and storing at -20°C.

Western Blot: Dilute antibody 1:500-1:1000 fold in TBS containing 5% non-fat milk and incubate for a minimum of two hours. We recommend a 1:5000 dilution of conjugated anti-mouse secondary antibody in TBS containing 5% non-fat milk for 1 hr incubation.
