

UGT1A9 Antibody

(50 µL)

Catalog Number: **DRD26037**

Store at -20°C.

FOR RESEARCH USE ONLY

Alternative Names: LUGP4; UDPGT; UGT1I; HLUGP4; UGT-1I; UGT1-9; UGT1.9; UGT1AI; UGT1-09; UDPGT 1-9

Preparation: Polyclonal antibody for UGT1A9 was produced by immunization of a rabbit with a recombinant human UGT1A9 protein.

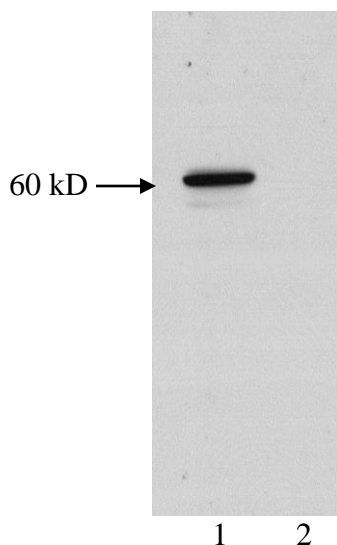

Specificity: The antibody recognizes UGT1A9 from human.

Form: liquid; PBS, pH 7.4, with 50% glycerol and 0.02% azide.

Storage: Avoid repeated freezing and thawing by dividing the contents into aliquots and storing at -20°C.

Western Blot: Dilute antibody 1:100-1:2000 in TBS containing 5% non-fat milk and incubate for a minimum of two hours. We recommend a 1:5000 dilution of conjugated anti-mouse secondary antibody in TBS containing 5% non-fat milk for 1 hr incubation.

IHC: We recommend diluting the antibody 1:50-1:200 with an overnight incubation.
